

User Manual  
**the CHICAGO WAY**

Thank you for purchasing your new Daredevil pedal. All hand built in Chicago, IL. Your effect is designed to run on a 9V battery or DC power source, negative pin (ground). Unplug your input cable when not in use to prolong the life of your battery. This pedal is true bypass.

**WEST SIDE FUZZ** - A heavily modified Daredevil version of a vintage 1960's FUZZ. Thick and sweet.

**SOUTH SIDE DRIVE** - Vintage voiced overdrive, modded with our favorite aspects of the classic versions from the 70's

**TOGGLE SWITCH** - selects the order of the effects. Fuzz into OD or vice versa. Creates a wide variety of tones.

This pedal is a 2 in 1 collaboration with Chicago Blues artist Toronzo Cannon. Vintage Fuzz and OD that can be used independently. The internal trim pot adjusts the OD tone, it comes set in the middle. Adjust for your preference.

For best performance of your effect, use a high quality isolated power source. Any individual wall plug or non-grounded power adaptors may cause unwanted noise.

Warranty info - Inquire with your dealer for their policies on repairs or returns. Daredevil Pedals offers a 2 yr warranty on mechanical parts that are not the result of misuse, modding, or failed repairs by a third party. For further questions or details, you can contact us at [Daredevilpedals@gmail.com](mailto:Daredevilpedals@gmail.com)
