

User Manual
REAL COOL FUZZ

Thank you for purchasing your new Daredevil pedal. All hand built in Chicago, IL. Your effect is designed to run on a 9V battery or DC power source, negative pin (ground). Unplug your input cable when not in use to prolong the life of your battery. This pedal is true bypass.

POWER - controls output level

DIRT - adjusts the amount of Fuzz

The Real Cool Fuzz is a 60's style silicon fuzz designed to be bright and aggressive. The dirt control will create some subtle octave fuzz harmonics near the middle of the sweep. Great for dialing in raw vintage tones reminiscent of Detroit garage rock, surf, and psychedelia.

For best performance of your effect, use a high quality isolated power source. Any individual wall plug or non-grounded power adaptors may cause unwanted noise.

Warranty info - Inquire with your dealer for their policies on repairs or returns. Daredevil Pedals offers a 2 yr warranty on mechanical parts that are not the result of misuse, modding, or failed repairs by a third party. For further questions or details, you can contact us at [Daredevilpedals@gmail](mailto:Daredevilpedals@gmail.com)
