FOOTSWITCH OPERATION		LED STATUS	GETTING STARTED	
4	**RECORD** Press footswitch once	🔴 REC	**1**	**LOWER MIXER CHANNEL LEVELS** Lower the gain/trim and fader controls on the mixer channel to which you will be connecting the JamMan Vocal XT.
5	**PLAY** Press footswitch once	🟢 PLAY	**2**	**MAKE CONNECTIONS** Make connections (see connection diagram on other side).
6	**OVERDUB** While loop is playing, Press footswitch once	🟡 DUB	**3**	**SET LEVELS** Set the **LOOP LEVEL** knob to the twelve o'clock position (unity gain).
7	**UNDO/REDO** While loop is playing, Press and hold footswitch	🟡 DUB		
8	**STOP** Press footswitch twice	⚪ REC DUB PLAY		
9	**CLEAR** While loop is stopped, press and hold footswitch	🔴 REC		

Sing into the mic and adjust the **Mic Level** control, which lights to show signal level, optimal level, and clipping. During vocal peaks, the **Mic Level** LED should light amber, but not red.

Set mixer channel and master faders at minimum. Sing and adjust mixer gain/trim to just below clipping. Set channel fader to 0dB and then bring up master faders to desired listening level.
