

# THE EMPEROR

JHS  
500

*True analog bucket brigade Chorus and Vibrato with tap tempo, waveform selection, and more. Classic modulation with modern amenities for tracking or mixing.*

## Controls

**BYPASS TOGGLE** - Turns the unit on or off. The Tap LED will flash when on.

**CHORUS/VIBRATO TOGGLE** - Choose between Chorus and Vibrato.

**WAVEFORM TOGGLE** - Choose between Sine, Square, and Triangle waveforms.

**EXP/TAP TOGGLE** - Chooses what function the TAP/EXP jack will perform. In Expression Mode, connect any TRS expression pedal to control the pedal's modulation speed. The speed parameters are preset for realistic rotary speaker sound. In Tap Mode you can set the modulation speed using an external tap tempo pedal or on-board tap button.

**VOLUME** - Controls the output volume.

**TONE** - Controls the overall tone. Left is darker, right is brighter.

**SPEED** - Controls the time/speed of the modulation.

**DEPTH** - Controls how deep or wet the modulation is perceived.

**TAP BUTTON** - Tap in the speed of the modulation. The LED indicates the speed of the modulation.
