

J. ROCKETT AUDIO DESIGNS

Controls

- **Control Knob:** Increases or decreases the amount of reverb

Settings

When we developed the BOING reverb we had the live club in mind. The BOING is part of our new Tour Series line of pedals which are created around simplicity in design and ease of use. We wanted to recreate a reverb of the past which was specifically designed to cut through the mix and give your tone some atmosphere. The BOING is a simple, one knob recreation of the classic Deluxe Reverb and, like many of the classic amps, it is just a single knob for either more or less reverb.

We made the knob extra large so it can be easily manipulated by one's foot. There is a ton of headroom and the reverb can be made to be extremely subtle for use in front of overdriven amps without getting nasty. When coupled with a delay, like our Alien Echo, you can achieve some pretty spectacular, spacey, beautiful sounds.

All J. Rockett Audio Designs pedals operate off of the standard BOSS type 9 volt adapter or a single 9 volt battery. The power input is a 5.5 mm x 2.1 mm jack with the positive voltage on the outer sleeve. Using an external power supply will automatically disconnect the battery. Disconnect the input jack to preserve battery life when not in use or when not used with an appropriate, external power supply.

2.1mm x 5.5 mm tip/negative plug

Warranty

J. Rockett Audio Designs LLC will repair or replace, at its discretion, defective workmanship or materials on all new J. Rockett Audio Designs products directly or through the selling dealer or an authorized service technician for one year from the date of purchase at no cost to the original purchaser. Repair and replacement parts installed will be warranted for the unexpired portion of the original warranty term.

Before sending a product in for repair, please contact us at chris@rockettpedals.com or jay@rockettpedals.com or call us at 760-419-1345.

This warranty does not cover shipping costs, product appearance or damages caused by accident, abuse, misuse or alteration. A dated sales slip or order number (issued by a tech, dealer or J. Rockett Audio Designs) must accompany a product being returned for warranty service. Repairs without a return authorization number will be refused. Please allow four (4) weeks for warranty service. For more information please contact J. Rockett Audio Designs via our website at www.rockettpedals.com or call us at 760-419-1345. No other warranty is expressed or implied.
