

## V6 Phaser King

### Precautions

#### PLEASE READ CAREFULLY BEFORE PROCEEDING

##### **Power supply**

Please connect the designated AC adapter to an AC outlet of the correct voltage.

Please be sure to use only an AC adapter which supplies 9V (+10%) DC, center minus. The maximum working voltage shall not exceed 18V, otherwise may be dangerous equipment damage, fire, or other problems.

Unplug the AC power adapter when not using or during electrical storms.

##### **Connections**

Always turn off the power of this and all other equipment before connecting or disconnecting, this will prevent malfunction and/or damage to other devices. Also make sure to disconnect all connection cables and the power cord before moving this unit.

##### **Handling**

Do not apply excessive force to the switches or controls.

Do not let paper, metallic, or other objects into this unit.

Take care not to drop the unit and do not subject it to shock or excessive pressure.

##### **Cleaning**

Clean only with a soft, dry cloth. If necessary, slightly moisten the cloth.

Do not use abrasive cleanser, cleaning alcohol, paint thinners, wax, solvents, cleaning fluids, or chemical-impregnated wiping cloths.

##### **Interference with other electrical devices**

Radios and televisions placed nearby may experience reception interference. Operate this unit at a suitable distance from radios and televisions.

##### **Location**

To avoid deformation, discoloration, or other serious damage, do not expose this unit to the following conditions:

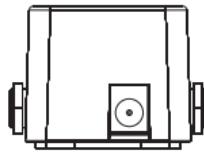

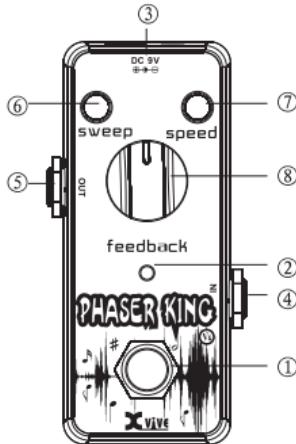

|                                    |                                  |
|------------------------------------|----------------------------------|
| .Direct sunlight                   | .Heat sources                    |
| .Magnetic fields                   | .Extreme temperature or humidity |
| .Excessive dusty or dirty location | .High humidity or moisture       |
| .Strong vibration or shocks        |                                  |

- .The Phaser King is 9-voltate supply pedal but with a higher head room and improved clarity
- .100% analog circuit design
- .Quiet operation with companding noise reduction circuitry
- .Compact size with three knobs controls, give you the flexibility to set the effect you desired.
- .Total (true) bypass

## Effects Explanation

Phaser king pours on the special sauce to take your tone into outer space

## Panel instruction

### 1. True Bypass Footswitch:

Push down the footswitch to switch between effects and bypass status

### 2.ON/OFF LED:

Instructs Effects or bypass status of Phaser king, when the LED is lit up, the effects is on.

### 3.DC IN Power jack:

For power supply, use a 9V DCregulated AC adapter( plug polarity is positive on the barrel and negative in the center).

### 4.INPUT Jack:

1/4" mono audio jack, for connecting guitar.

### 5.Output Jack:

1/4" mono audio jack, outputs the signal.

### 6.Sweep Control:

SWEET RANGE control - allows adjusting the range of the sweep from none to very wide.

### 7.SPEED Control:

Adjusts the sweep speed from very slow to very fast.

### 8. Feedback control:

Sets the amount of effect from subtle to very deep.

## Specifications

Input: 1/4" monaural jack (impedance: 10M ohms)

Output: 1/4" monaural jack( impedance: 150 ohms)

Power Requirements: AC adapter 9V DC (center minus plug)

Current Draw: 70 mA

Dimensions:46 (W) \*94 (D) \*50 (H) mm

Accessories: Owner's manual
