

V8 Chorus Vibrato Pedal

Precautions

PLEASE READ CAREFULLY BEFORE PROCEEDING

Power supply

Please connect the designated AC adapter to an AC outlet of the correct voltage.

Please be sure to use only an AC adapter which supplies 9V (+/-10%) DC. Center minus. The maximum working voltage shall not exceed 12V. Otherwise may be dangerous equipment damage, fire or other problems.

Unplug the AC power adapter when not using or during electrical storms.

Connections

Always turn off the power of this and all other equipment before connecting or disconnecting, this will help prevent malfunction and/or damage to other devices.

Also make sure to disconnect all connection cables and the power cord before moving this unit

Handling

Do not apply excessive force to the switches or controls

Do not let paper, metallic, or other objects into this unit

Take care not to drop the unit, and do not subject it to shock or excessive pressure.

Cleaning

Clean only with a soft, dry cloth, if necessary, slightly moisten the cloth

Do not use abrasive cleanser. Cleaning alcohol, paint thinners, wax, solvents

Interference with other electrical devices

Radios and televisions placed nearby may experience reception interference. Operate this unit at a suitable distance from radios and televisions

Location

To avoid deformation, discoloration, or other serious damage, do not expose this unit to the following conditions:

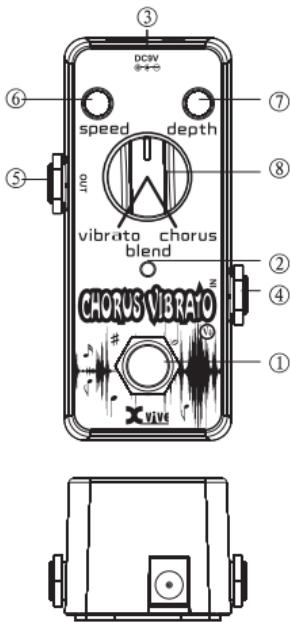

- | | |
|------------------------------------|----------------------------------|
| .Direct sunlight | .Heat sources |
| .Magnetic fields | .Extreme temperature or humidity |
| .Excessive dusty or dirty location | .High humidity or moisture |
| .Strong vibration or shocks | |

Main features

- . 100% analog circuit design that creates liquid textures and space feeling
- . Unique blend control that blends vibrato only at one end to full chorus effects on the other end

- Speed and depth knob give you easy and complete control over this industry standard chorus effect
- Total (true) bypass
- DC 9V Adapter power supply

Panel instruction

1.TRUE BYPASS Footswitch:

Push down the footswitch to switch between effects and bypass status.

2.ON/OFF LED:

Instructs effects or bypass status of V8, when the LED is lit up, the effects is on.

3.DC IN Power Jack:

For power supply, use a 9-volt DC regulated AC adapter(plug polarity is positive on the barrel and negative in the center)

4.INPUT Jack:

1/4" mono audio jack.,for connecting guitar

5.OUTPUT Jack:

1/4" mono audio jack, outputs the signal

6.SPEED Knob:

Control the modulation rate

7.DEPTH Knob:

Control the amount of modulation.

8.Blend Knob:

Blends vibrato only at one end to full chorus effects on the other end

Settings

For a true chorus effect, the chorus/vibrato is set all the way to chorus, the speed is set low, and the depth low or near the middle. For a true vibrato effect chorus/vibrato is set to vibrato, speed to a middle or high setting, and depth as desired. The higher the speed, the higher the depth should be set.

Specifications

Input: 1/4" monaural jack (impedance: 10M Ohms)

Output: 1/4" monaural jack (impedance: 150 Ohms)

Power Requirements: AC adapter. 9V DC (center minus plug)

Current Draw : 25mA

Dimension:46 (W) *94 (D) *50 (H) mm

Accessories: Owner's Manual
